Faisalabad, Pakistan

### ABOUT ME

I am Ubaidullah, a dedicated Full-Stack Developer with expertise in building dynamic, scalable, and high-performance web applications. With a strong command of the MERN stack (MongoDB, Express.js, React, Node.js), I develop seamless and efficient solutions that blend robust back-end functionality with engaging front-end experiences. I specialize in real-time data processing, API integration, and modern . My focus is on creating responsive, high-quality applications that deliver exceptional user experience.
